MINI WHOLE HOUSE WATER
 FILTRATION SYSTEM

MINI WHOLE HOUSE WATER FILTRATION SYSTEM

Suitable for small spaces such as apartments, office buildings and small businesses

SMALL IN SIZE, BIG IN FUNCTION

▲ MINI

- 19cm Diameter x 47cm Height.
- Suitable for small spaces.
- Comes complete with installation accessories.

▲ Excellent filtration with high flow rate

- Superior^① filtration for cleaner, clearer water.
- Removes chlorine, taste, odour and colour.^②
- NSF certified components for your safety and quality assurance.

^① Compared to the filtration performance of ordinary household central water filters of 50 microns

^② Applicable to RFC and DBC cartridges.

2 UNIQUE DESIGN FEATURES

▲ Innovative design with built-in quick-change bypass feature

- No additional purchase and installation of a separate valve.
- Allows you to change cartridge without turning off the water supply.

▲ Distinct pressure relief button

- Easy to identify and operate for safer installation and maintenance.

3 FILTRATION SYSTEMS

▲ 1 Filter, 3 Systems

- Customizable with 3 options to meet your filtration needs.
- You may choose your system according to water quality, filtration requirements, installation conditions and budget.

• BASIC

+

DGD Dual-Gradient Density Cartridge

- Removes larger dirt particles with 75 micron outer layer.
- Finer filtration with 25 micron inner layer.
- High flow, high capacity, does not clog easily.

• PREMIUM

+

RFC Radial Flow Carbon Cartridge

- Carbon technology removes chlorine, taste, odour and colour.
- Removes dirt particles with 25 micron inner layer.
- High flow, high capacity.

• SUPERIOR

+

DBC Granular Activated Coconut Shell Carbon with KDF media Cartridge

- Carbon technology removes chlorine, taste, odour and colour.
- Enhanced with KDF media to prevent buildup of limescale, growth of algae and fungi, and remove soluble heavy metals.
- Bacteriostatic feature of KDF media inhibits growth of bacteria in the cartridge.
- Excellent filtration with 5 microns inner layer.
- High flow, high capacity.

Filter Type	Flow Rate	Filtration Accuracy	Performance						
			Removes dirt, sand, rust particles	Removes chlorine, taste, odour	Removes colour	Prevents buildup of limescale	Removes bacteria growth	Prevents growth of algae & fungi	Removes soluble heavy metals
BASIC	2 m ³ /hr	25 micron	√						
PREMIUM	1 m ³ /hr	25 micron	√	√	√				
SUPERIOR	1 m ³ /hr	5 micron	√	√	√	√	√	√	√

* Notes:

1) Min./Max. Water Temperature: 4 - 38°C

2) Min./Max. Water Pressure: 30 - 100 psi

3) Do not use with water that is microbiologically unsafe, or of unknown quality, without adequate disinfection before or after the system.
