

High Flow Rate, High Output, and High Dirt Holding Capacity

Pentair Everpure FT Series Water Filtration System

Brand new FT water filtration system, specially developed for various water quality conditions. It combines the innovative Fibre Ton filtration technology and high-performance filter materials to achieve high flow. It is well suited to cope with a variety of water quality environments and peak water use scenarios.

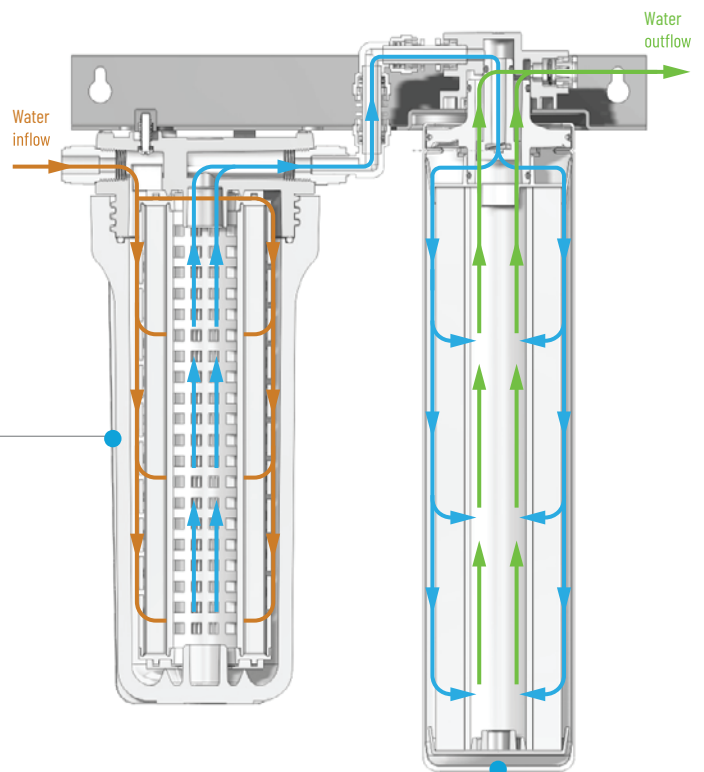

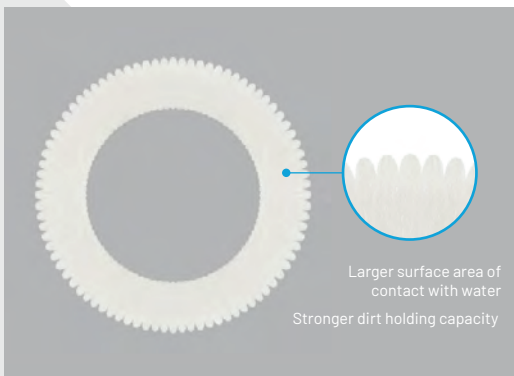

Unique Progressive Double Protection System Design High Dirt Holding Capacity, High Flow Rate

Integrated Sediment Prefilter High quality pleated PP filter cartridge

- Reduce turbidity¹, and trap sediment, rust, large particles and colloidal substances that are above 0.45 micron², effectively extending the life of the main cartridge

- Increase the effective filtration area by more than 7 times³, thus significantly enhancing the dirt holding capacity and reducing the frequency of cartridge replacement

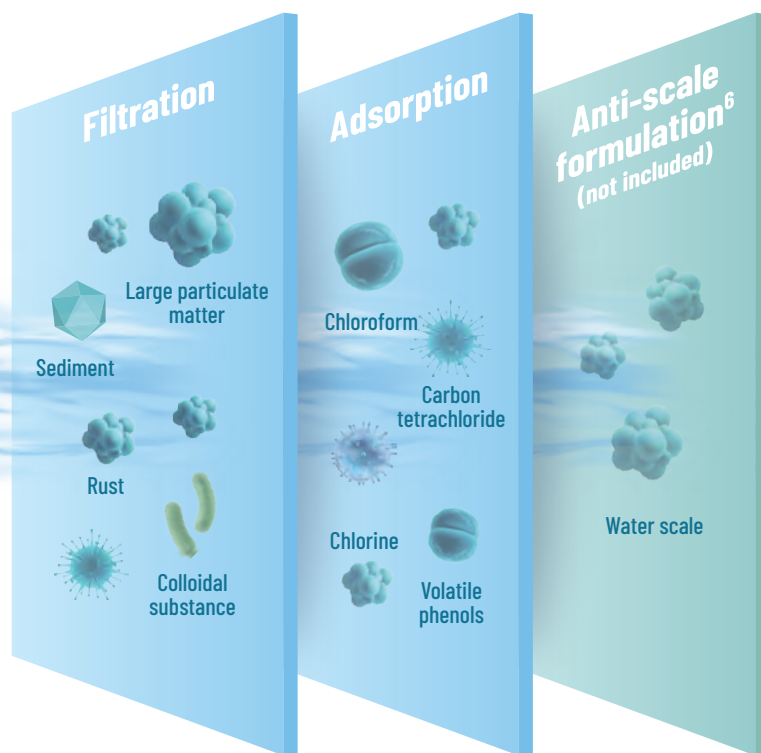

Fibre Ton Filtration Technology Ultra-fine activated carbon fibre filter cartridge

- Activated carbon fibre technology, with strong and fast adsorption capacity, is able to effectively adsorb organic matter⁴ and chlorine⁵ in water, and trap particulate matter over 0.5 micron²
- Adopts the wet casting molding process to expand the effective surface, further ensuring strong adsorption capacity

Imported High-Performance Filter Material, Multi-Stage Filtration and Well-Assured Water Quality

- Uses high-quality imported carbon powder
- Adopts a multi-stage filtration process to trap colloidal substances, chloring and organic substances⁴ and other pollutants in water, so as to improve water safety
- Optional Everpure anti-scale filter cartridge, natural and environmentally friendly

Quick replacement of filter cartridge
Saves time and effort

No electricity required and
free of waste water
Protects the environment,
saves energy and costs

FT Series Water Filtration System Specifications

Product Description	4FT Combo System	4FT Twin System
Product Picture		
System Part No.	SA11185	SA11187
Main Cartridge No.	SA21049	SA21049
Max. Flow Rate (L/min) ⁶	9.46	18.92
Max. Flow Rate (GPM) ⁶	2.5	5.0
Capacity (L) ⁶	75,708.24	151,416.48
Capacity (Gallons) ⁶	20,000	40,000
Dimensions (Width×Height×Depth, cm)	30×38.5×13	59×43.2×13.3

Product Description	7FT Combo System	7FT Twin System	7FT Triple System	7FT Quad System
Product Picture				
System Part No.	SA11186	SA11188	SA11189	SA11190
Main Cartridge No.	SA21057	SA21057	SA21057	SA21057
Max. Flow Rate (L/min) ⁶	9.46	18.92	28.38	37.84
Max. Flow Rate (GPM) ⁶	2.5	5.0	7.5	10
Capacity (L) ⁶	113,562.35	227,124.70	340,687.05	454,249.40
Capacity (Gallons) ⁶	30,000	60,000	90,000	120,000
Dimensions (Width×Height×Depth, cm)	30×53.5×13	59×58.2×13.3	61.2×64.9×17.1	71.2×64.9×17.1

Pentair is Committed to Smart, Sustainable Water Solutions For Life

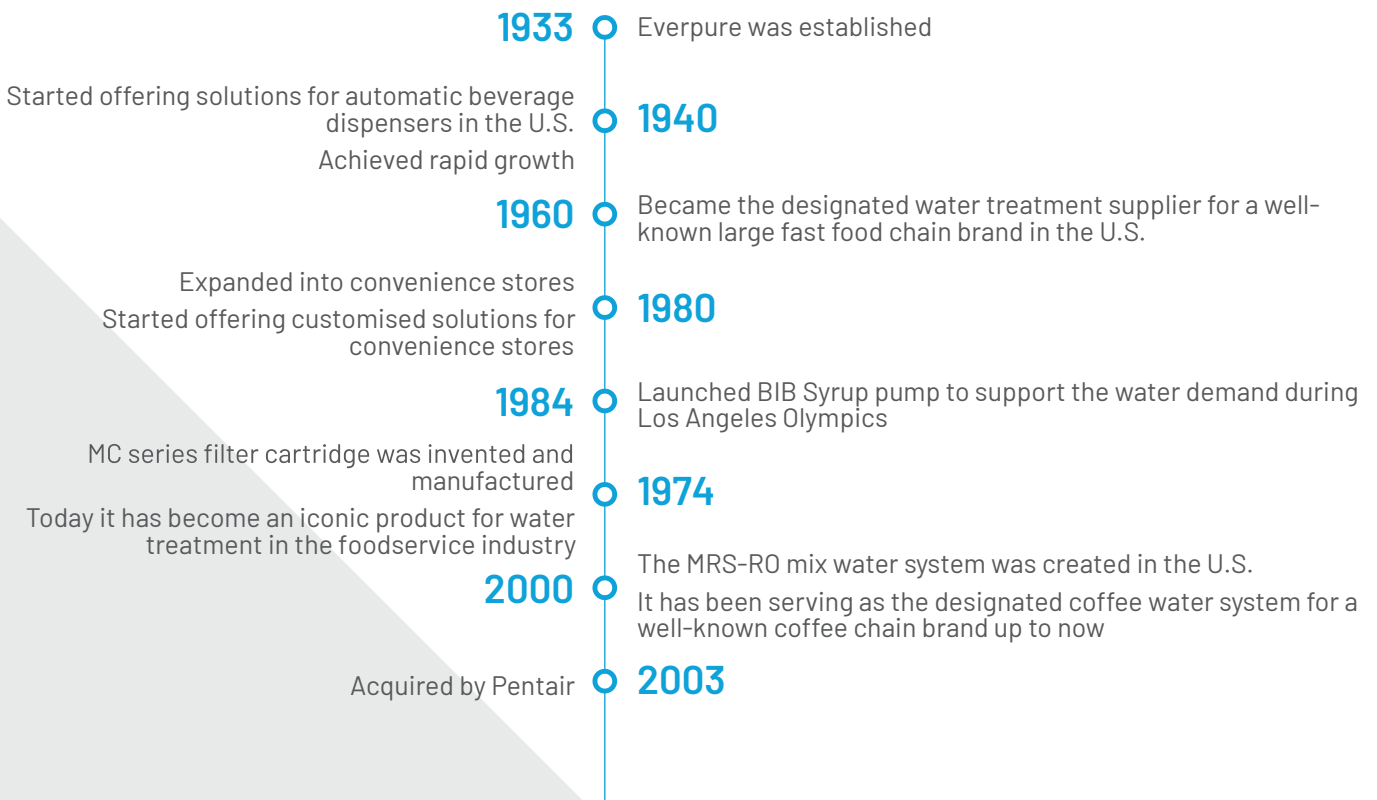

Pentair was founded in 1966 and is headquartered in Minnesota, USA. Everpure, a brand of Pentair, has been one of the most trusted brands in the foodservice industry since 1933. An expansive portfolio of technologies and products are designed to be the right sized to deliver the exact water quality specifications needed to meet operator's ingredients and process water requirements. Pentair had revenue in 2021 of approximately USD 3.8 billion, and trades under the ticker symbol PNR. With approximately 11,250 global employees serving customers in more than 150 countries, we work to help improve lives and the environment around the world.

At Pentair, we are driven to create a better world through smart, sustainable water solutions. We help the world sustainably move, improve, and enjoy water, life's most essential resource. From our residential and commercial water solutions, to industrial water management and everything in between, Pentair is focused on driving innovation that helps our planet and people thrive.

About Everpure

Everpure, a brand of Pentair, is dedicated to providing one-stop water solutions for commercial organizations across the world. With outstanding products and services, Everpure has successfully served numerous clients, including commercial coffee chain shops, beverages, fast food, and convenience stores, in customising well-rounded solutions, helping them improve water and energy efficiency, and realising sustainable development.

1. Please refer to Jiangsu CDC inspection report (HJ) 20210177
2. With reference to the water-related product hygiene license approval document: (S)WSZ (2022) No. 3200-0052
3. Compared with the Everpure PP cotton cartridge of the same size, the filtration area is increased by 7 times
4. Organic substances refer to chloroform, carbon tetrachloride, and volatile phenols, please see Jiangsu CDC inspection report (HJ) 20210177
5. Please refer to Jiangsu CDC inspection report (HJ) 20210176
6. Tested in the Pentair lab and verified by third party lab
