

F-SERIES

## 2-STAGE FILTRATION SYSTEMS

If you don't love the taste of your tap water or have concerns about potential contaminants, the 2-stage F-Series Drinking Water System can help. Installing a water filtration unit under your kitchen sink is more convenient and cost effective than buying bottled water, and it reduces bottle waste.

# F-SERIES F2100 EASY AND DEPENDABLE

## EVERYTHING YOU NEED

Maybe your water tastes bad or you're concerned about potential contaminants. A Pentair Drinking Water System will provide you with excellent water for drinking and cooking. Find the best fit for your home by starting with a water test from a water treatment professional.

## TRUSTED TECHNOLOGY

For more than 85 years, Pentair has been the quality choice for water treatment. Pentair unique encapsulated cartridge technology prevents contaminants from entering your water.

# FIND THE BEST FIT FILTRATION

Less maintenance, less costly

Easy Installation

Takes up less room under the sink

Leaves naturally found minerals and vitamins in water

Filtration systems are designed to target specific contaminants, such as dirt, chlorine taste & odor, and sediment. The technology inside the canisters will trap impurities, filtering out what you don't want, and leave you with safer, more delicious water for cooking and drinking.

## APPLICATIONS

Kitchen

Coffee Maker

Bathroom

Ice Maker

## CLICK AND ENJOY

Effortless click-in lock installation and serviceability cartridge reduces time and money spent.

- Effortless click-in lock, dry change cartridge replacement.
- Compact, space saving design for ease of installation in tight areas.
- Water supply valve allows shut off for ease of maintenance.
