

Everpure P40B Prefilter

Model

SA11238: Everpure P40B Prefilter

Advantages and Features

4m³/h High Flow Rate

316 Stainless Steel Filtration Mesh

3-Dimensional Cleaning

Monthly Backwash Recording Rotating Plate

Real-Time Water Pressure Monitoring

40 Microns Filtration Precision

Resistant to Low Temperatures and Explosion-Proof

Everpure P40B Prefilter – SA11238

Product Specifications

System Description	Everpure P40B Prefilter
Part Number	SA11238
Water Purification Flow Rate (m³/h)	40
Filtration Precision (µm)	40
Dimensions (mm)	159(W)X83(D)X277(H)
Connector Size (mm)	19.05 and 25.4
Operating Pressure (MPa)	0.15 – 1
Surrounding Temperature (°C)	4 – 40
Applicable Temperature (°C)	5 – 38

Materials Included

Pentair Water India Pvt LTD

Candor TechSpace
Ground floor & First Floor
Tower 5, Block B, Sector 62,
Noida-201301
